ganization shall have a marching club and that uniforms will be procured. The club marchers will be seen at rallies to be held in this section dur-ing the next three weeks.

AND 100 TENEMENTS To Be Erected at Williamsville By the Killingly Manufacturing Co.

Burdette C. Hopkins stated Thursfay that he was in receipt of a telethe tion of a big yarn mili at Williamsville and also upon the construction of a big yarn mili at Williamsville and also upon the construction of 100 treements. Only last week Mr. Buliard predicted this action by the company, following the concern's allowing its option on the flarmally Mills, at Fall River, to expire. For a long time the company has been facing the necessity of expansion, but whether that expansion would be made in this flown or eisewhere has been a point receiving the closest consideration.

Some were harwill be when completed a detail survey of all the company's property, which includes a considerable amount of farming land, near to its present mill and to the Quinebang river, from the waters of which some of the power used at the plant is developed.

It is also known that records and other ceremonies of the beautiful afternoon were held.

Mayor J. J. McGarry presided at the exercises. The principal address was delivered by Rev. James J. McGetrick, assistant at St. Marr's church, the other speakers being Harold W. Files superintendent of schools, Henry N. Eeffolt, who spoke in French, and Lewis Delia Badia, Webster, whose address was in Italian.

The splendid demonstration of to-day must strike a responsive chord of enthusiasm in every loyal heart. It turns back the pages of history some five hundred years and it dwells with emphasis upon a man and his achieve-ments, who did so much when he opened up a new continent to the civilization and enlightenment of the Old World. Christopher Columbus—he it is whom we honor today—gives to this day his name and furnishes us a worthy theme of praise wherever men will recount his wonderful and differential to the control of will recount his wonderful and diffi-

Country Honors Her Sons. It is peculiarly characteristic of our country to honor those, who have been instrumental in making her name great and illustrious. On each succeeding anniversary of her honored sons she renews with unabated enthusiasm the task of recalling to the older generation and proclaiming to the new generation and proclaiming to the new the names and deeds of those, who make up her history of glory and achievement. It is, indeed, fitting that from time to time drifted into this section and was last employed, so far as is known, at the mill in Attawau-gan. A pay envolope of the Attawau-gan company was taken from a pocket of his ciching and had a date of September 16, 1916.

Wednesday night Bousquet was ly-tion, we would, indeed, be ungrateful into the section which we enjoy: of unlimited facilities in every box of human endeavor: in the consciousness that there is yet before us in the future the probability of greater accomplishments: when we take all these things into consideration, we would, indeed, be ungrateful into this freedom and happiness, which we enjoy: of unlimited facilities in every business. branch of human endeavor; in the consciousness that there is yet before us in the future the probability of greater accomplishments; when we take all these things into consideration, we would, indeed, be ungrateful in ourselves and untrue to the ideals of patriotism, if we neglected to give a passing thought to those men, whose names are inseparably linked with our beloved country, whose principles of justice and equity found expression in her very constitution and who in laying the foundation for future growth and greatness, builded better than they knew.

These were some of the early struggles of the man of honored memory on this day, who opened up a destined great continent.

The All Star team that Joseph Connolly is to bring to this city Sunday afternoon to play the Putnam team is to be made up almost exclusively of big league and International league great continent.

they knew. An Extraordinary Man. A writer once said and wisely, too, that the mysterious hand, which gov-erns the universe, seems to hold in reserve for every period of society an extraordinary man. The man, Christopher Columbus, whom we honor today, seems to have been destined to draw the curtain of the Atlantic ocean from the cell where he had spent the night and laid him on a cot placed in the corridor of the cell room. There Beusquet died. The body was taken in charge by a local undertaker.

Bridgeport.—Ten days in fail was the sentence imposed in the city court upon Harry Hanson, found suilty of passing a standing trolley car while he was riding a motorcycle.

by the world. Out in the great ocean, to unknown to man, waiting for someone to give it a name and a place in the world affairs lay the new world. Over to in the old world was the man, to whom we are indebted for the important discovery of the fitteenth century. It pleading for the recognition of an idea that there must be land beyond the limited vision of where the sky seemingly met the ocean on the western horizon and no one would listen to him, because his undertaking at best was considered hazardous and his idea was absurd.

### of any ordinary man. Indomitable Courage.

Our great admiration for Columbus centers itself on the indomitable courage, which he displayed in matching his theory with the almost proven knowledge of others. Although rumors and opinions of the earth's roundness had existence from the time of Pagan writers, in the time of Columbus h stood alone in his desire to put thi theory to its test. Sailor of ence though he was he had to fac the opposition of all. Royalty oppose him; people ridiculed him; education disproved him. Thus in the face lumbus still clung to the dream of a Golden West, where lay a new land and a new world

A Woman, a Sailor and a Monk. "A woman, a sallor and a monk are the three by whom America was pointed out afar off." A writer thus describes the first success of Columbus' plan and the encouragement, which was given to his idea of exhibits and ploration by Queen isabelia of Spain at the pleading request of Don Perez, the Prior of a monastery. She influenced the crown to open negotiation by the plan and provided special enterprises the first state of the plant of the p the three by whom America was pointed out afar off." A writer thus describes the first success of Columat the pleading request of Don Perez, the Prior of a monastery. She influenced the crown to open negotiations for the equipment of an expedition and history gives us the significant date of Aug. 3, 1492, when the control of the con cant date of Aug. 3, 1492, when the people with heavy hearts saw Columbus depart on a mission, which was rade. rade.

Local attorneys will be in Willimantic today attending the short calendar
trom which he would never return.
Two months later, October 12, 1492, is
the discovery of land, the recorded the discovery of land, the birthday of a new continent.

would be an asylum for all Europe, each one uniting to make her great and glorious; but he was the occasion of her beginning, and he was the pivot around whom revolves her energetic feats in history. We are apt to forget the great service, which he rendered to us, when his flagship, the Santa Maria, brought him to land on this continent, for he must always be regarded as one of our greatest benefactors. It may be that the lapse of time between his discovery and the commencement of our own republic is so great that we fain would go no further back in our quest for those to the world. Out in the great ocean, unknown to man, waiting for someone to give it a name and a place in the world affairs lay the new world. Over in the old world was the man, to whom we are indexed for the important discovery of the fifteenth century, pleading for the recognition of an idea that there must be land beyond the limited vision of where the sky seemingly met the ocean on the western horizon and no one would listen to him, because his undertaking at best was considered hazardous and his idea was absurd.

The mind today, studying a map of the earth, cannot imagine that the world was ever regarded otherwise than it is at present; but it is a the mind to do the complete that the world was ever regarded otherwise than it is at present; but it is a total cannot imagine that the world was ever regarded otherwise than it is at present; but it is a total cannot imagine that the world was ever regarded otherwise than it is at present; but it is a total cannot imagine that the world was ever regarded otherwise than it is at present; but it is a total cannot imagine that the world was ever regarded otherwise than it is at present; but it is a total cannot imagine that the world was ever regarded otherwise than it is at present; but it is a total cannot imagine that the part he had as a sallor and an explorer in laying the foundation of great things on this continent.

Honor, then, to whom honor is due.
